

PORTRAIT OF A GRADUATE MARCH 11, 2019

While each school system is unique, all are connected by a shared aspiration: that all students have educational experiences, that prepare them to be effective lifelong learners and contributors. Now more than ever, those experiences must not only provide for the acquisition of rigorous academic content, but they must also be more intentional about fostering critical thinking, communication, collaboration, creativity, and other 21st century skills our young people need to thrive in this complex, rapidly changing world. Many school systems across the country have engaged their larger community in developing a Portrait of a Graduate, a collective vision that articulates the community's aspirations for all students and helps guide the educational experiences in which students are engaged.

Locally developed, but globally positioned, the Portrait of a Graduate serves as a North Star for system transformation. Providing strategic direction for the redesign of the overall educational experience for students, this collective vision reinvigorates and re-engages students, teachers, administrators, school board members, and community stakeholders.

\$150.00 per participant
